Profile Summary

Enthusiastic Computer Science undergraduate with a strong foundation in full-stack web development, problem-solving, and software engineering principles. Skilled in building scalable web applications using modern frameworks, with hands-on experience in React.js, Node.js, Firebase, and MongoDB. Proficient in Data Structures & Algorithms with 150+ solved problems on LeetCode & HackerRank. Passionate about continuous learning and contributing to impactful projects.

Education

B.Tech in Computer Science & Engineering – Galgotias University, UP (2021–2025) | CGPA: 7.5

Class XII (CBSE) – 2021 | 72%

Technical Skills

Languages: JavaScript, Python, C++

Frameworks & Libraries: React.js, Node.js, Express.js

Databases: Firebase, MongoDB

Developer Tools: Git, GitHub, Postman, VS Code

Core Areas: Web Development, DSA, OOPs, REST APIs

Projects

Netflix Clone | React.js, Firebase

- Designed and developed a Netflix-like web application with authentication, video playback, and responsive UI.
- Integrated Firebase Firestore & Authentication to store user preferences securely.
- Deployed for cross-device compatibility, ensuring smooth user experience.

Weather App | React.js, CSS, API Integration

- Built a real-time weather application with dynamic backgrounds and city search functionality.
- Consumed weather APIs to fetch live data and presented results in a responsive layout.
- Improved UX by implementing weather-based UI themes.

Portfolio Website

- Created a personal portfolio showcasing projects, skills, and achievements.
- Hosted using GitHub Pages/Netlify for easy access by recruiters.

Achievements & Certifications

- Completed JavaScript & React.js Certification (Coursera/Udemy).
 - Solved 150+ DSA problems on LeetCode & HackerRank.
-
